Occultism.
It is noteworthy that supernatural events prevailed just as strongly at the other side of the globe, among the aborigines of the new world. The coming of the Spaniards had been prophesied to the Mexicans by their oracles, and the prophecies were sung amid loud lamentations at their festivals.

You Read the Other Fellow's Ad

You are reading this one. That should convince you that advertising in these columns is a profitable proposition; that it will bring business to your store. The fact that the other fellow advertises is probably the reason he is getting more business than is falling to you. Would it not be well to give the other fellow a chance

Youngstown	22 19 538
Sharon	21 20 512
Akron	16 24 400
	16 27 372

In the most exciting game that has been played at the rink thus far, Mansfield put the cleaner on Bobby Quinn's Runt last night, thereby maintaining its lead in the Ohio league. The score was four to two.

The game was close throughout and until the last period, when lack of ice to behold. Bruck last night was in the Marion five, it was anybody's game. In the first half the men pounced it considerably. Shaw and Whiting mixed it up especially and almost came to blows on several occasions.

Shaw succeeded in caging the first goal and shortly before the close of the half Whiting binged the sphere into the cage, tying the score. Again there was some fast, exciting work in the second period. Shaw came into the limelight by driving another of his famous goals but Long got one past Bruck and the score was two and two.

In the last period, Ferd Drumm's aggregation pulled out victory. Wallace, the goal guardian of the visitors, made some wonderful stops in the cage and prevented Marion from obtaining a lead. "Ike" Houghton caged two pretty ones in his usual sensational style and it was all over. Quinn's team showed up even better than in the game Wednesday. There is still a lack of team play that will be overcome, and as the men round into condition the flag of victory will wave from the mast at the local rink much more often than in the past.

The line up and summary:
Marion—2. Position. Mansfield—4. Stamper First rush. Long Shaw Second rush. Houghton Kenworthy Center. Whiting Sipe Halfback. Morgan Bruck Goal. Wallace Goals—Shaw 2, Whiting, Long, Houghton 2, Rushes—Stamper 4, Long 5, Stops—Bruck 41, Wallace 21, Fouls—Stamper, Houghton, Referee—Lalonde.

LANCASTER EASY.
Coshocton, O., Dec. 26.—Lancaster made her debut on the local floor tonight and proved easy picking for the Bull Dogs. The locals took it easy the first two periods and handed but one goal. In the third they got together and put in four. Coshocton's new goal tend, May, made good. Graffam starred for Lancaster and locals honors were even. Line-up:
Coshocton Lancaster.
Williams F. R. Noland
Hickey S. R. Turner
Boise C. Hedley
Perry H. B. Oosting
May G. Gaffam
Referee—Lee. Time keeper—Boyd. Attendance 600.

Polograms

"I have been in every rink in the Ohio State and Inter-State leagues," said Manager Ferd Drumm after the game last night, "but there is not a polo rink in either circuit that can compare with this place. It has the best playing floor and the finest seating arrangement I have ever seen."

To Messrs. Cassidy and Smucker managers of the Royal rink must again the credit be given. They never do things in a half way manner. Marion was promised one of the finest roller skating rinks in Ohio and got it. When polo was talked of Manager Bob Quinn was promised the best arrangement at the rink that money could secure and he got what was promised him.

All the members of the local and visiting teams are loud in praise of the fine playing floor. Manager Frank Wilson of the Lancaster team, who for the past fifteen years has been a prominent figure in roller polo says Marion has the best equipped polo rink he has ever seen. We take off our bonnets to you Mr. Cassidy and to you Mr. Smucker.

Manager Drumm has by far the fastest team that has visited Marion. In Ike Houghton and Long, Ferd has two of the cleverest men in the league.

The local lads showed great form last night. Considering that the visitors have played together for over a month, Manager Quinn has reason to be pleased at the showing made by his men.

Kid Shaw again set the fans crazy with his fast work and pretty drives. This young man will bear watching. Working under his present great handicap he has won a home in the hearts of the lovers of the game.

Eddie Sipe and Kenworthy are two clever, fearless players. The way both smother drives at all times is a sight to behold. Bruck last night was in rare form. Some of his stops were most sensational and time and again the lad drew a generous hand for his timely work.

Marion played the league leaders to a standstill. Had it not been for two very lucky drives by Houghton Mansfield would have been compelled to be satisfied with a defeat.

Marion appeared in their new gray uniforms last evening and their new duds did not in the least keep the man from getting into the game. The road uniforms are of blue.

President Roberts of the Mansfield polo club, was the guest of Ferd Drumm here yesterday.

Drumm was given an enthusiastic reception by his many friends here.

Large crowds are the order of affairs at the rink and 'ere the season has advanced much farther, standing room will be a premium at most of the games. The sport loving public of Marion is taking to the game.

Coshocton will be here Tuesday night, by which time the Runt will be in condition and the visitors may look for a pretty warm reception.

Ike Houghton brought cat calls and hisses from the crowd by his rough work. Ike didn't mind it in the least, only smiled and played all the harder.

WIDOW OF MICHIGAN STATESMAN

The wife of the late senator Alger divides the greater portion of her time between her Detroit home and the National Capital.

GREAT MARBLE CAVE

OREGON MARVEL VISITED BY PARTY OF EXPLORERS.

Situated in Siskiyou Reservation and Promised to Be Largest in the World—No Less Than Twenty Miles of Chambers.

Portland, Ore.—In southern Oregon, hugging the California line, near the famous old mining camp of Korb, is a cave that promises on further exploration to be the greatest in the world. It is in the Siskiyou reservation, 75 miles from Crater lake, and eight miles from Briggs' mines, on Sucker creek.

This wonder of marble and crystal beauty has just been explored to greater depths by a party composed of Joaquin Miller, C. B. Watson and Jefferson Myers. Mr. Myers returns to Portland enthusiastic with what he had seen.

"It is truly wonderful, that place is," he said. "We went over all that is now known of it. Joaquin Miller named it 'The Marble Halls of Oregon.'"

"We went from Korbville under the guidance of the two men who have spent 20 years in and around the splendid place—John Kincaid, of Williams, Ore., and Frank M. Nickerson, of Korb. We left Portland August 1, and have just got back.

"From Korb we went to the mouth of Cave creek, then up that stream over a good foot trail seven miles to the mouth of the 'Halls.' Here the River Styx comes right out of the mountains and tumbles over a fall of 20 feet. This is the lower entrance. It is about as large as an ordinary door in the face of a marble cliff, 300 feet high and 500 feet long and clear white, a beautiful sight in itself. This entrance was found in 1874 by a hunter named Elijah Davidson, who trailed a white-faced deer into the place. Three years later, in 1877, Davidson, Nickerson, one of our guides, and John M. Chapman made the first exploration. They went over the same route within the cave that we did this trip.

"The first owners were Homer and Ernest Harkness, brothers, who squatted there in 1880 and spent over \$1,000 trying to open up the place. They made trails and all that, but gave it up, for there were not people enough to come to see to make it pay. F. M. Nickerson and A. J. Henderson next took up the property in 1887. After them came Capt. A. B. Smith, who spent about \$3,000. Our party went in August 10, just past, and through the efforts of M. J. Anderson, chief of forestry for southern Oregon, the government withdrew it from private entry and will make it a national monument.

"The halls are, so far as we know now, on four levels or floors. From the lowest to the highest is about 600 feet. These levels, as in a mine, are connected here and there. Above the lower entrance is another and smaller one about 300 feet up the mountain.

"The hills cover perhaps a township, and contain not less than 20 miles of chambers, halls and rooms, many of which have not yet been opened up. The interior is composed of solid marble, white as snow and solid stalactites, some of them over 4 feet through and 50 feet long, clear as diamonds. The color effects cannot be expressed."

Wanted It Kept Up.
The family was gathered in the library admiring a splendid thunder storm when the mother bethought herself of Dorothy Moore in the nursery. Fearing lest her little daughter should be awakened and feel afraid, she slipped away to reassure her. Pansy at the door, however, in a vivid flash of lightning which illumined the whole room, she saw her youngest olive-branch sitting straight up in bed. Her big brown eyes were glowing with excitement and she clapped her chubby hands, while she shouted encouragingly: "Bang it again, God! Bang it again!"

Tear Down B. & P. Prison.
Washington.—Workmen have begun to demolish the old Center house at the marine barracks—the place where Aaron Burr was confined after he killed Alexander Hamilton in a duel.

Brains Covered with Gold.
Baltimore, Md.—Richard Swanger, who was unconscious for 11 days from a depressed fracture of the skull caused by a tree falling upon him, is recovering from a remarkable surgical operation, as a result of which he will carry a quantity of gold leaf in his head. The surgeons at Maryland university hospital had to separate the brain covering and the gray matter and place the leaf between them.

Makes an Appeal for Dogs.
Paris.—Jatino de Bourbon, son of the Spanish pretender, Don Carlos, thinks the lives of too many valuable dogs are sacrificed by the Paris authorities, and he has made an appeal for a reform which will enable the public to buy the captured dogs and thus save many of the fine animals.

CATARRH BLOOD UNHEALTHY SYSTEM DERANGED

The entire inner portion of the body is covered with mucous membrane; this membranous tissue is abundantly supplied with blood vessels, veins, arteries, and capillaries. Each of these is constantly supplying to this tissue or lining, blood to nourish and strengthen it and keep the system healthy. When the blood becomes infected with catarrhal matter it is not able to furnish the required amount of healthful properties, but feeds the parts with impurities which disease the membranes and tissues so that they become irritated and inflamed, and Catarrh, with all its disagreeable and dangerous symptoms, is established in the system. There is a constant rigging in the ears, a thin, watery discharge from the nostrils, the breath has an offensive odor, slight fever often accompanies the disease, and gradually the entire health becomes affected and the system upset and deranged. In its earlier stages, when Catarrh is confined to the nose and throat, sprays, washes, inhalations, etc., are soothing and in a way beneficial, because they are cleanly and usually antiseptic, but such treatment has no curative effect, because it does not reach the blood. To cure Catarrh the blood must be purified, and this is just what S. S. S. does. It goes down into the circulation and attacks the disease at its foundation; it removes the cause and makes the blood pure and healthy. Then the blood vessels are filled with fresh, reinvigorated blood, which is carried to all the mucous surfaces and linings, the inflammation and irritation are corrected, the symptoms all disappear, the health is improved and Catarrh is permanently cured. Book on Catarrh and any medical advice free to all who write.

PUBLIC HAS RIGHT TO KNOW.

Truthful Labels on Canned Goods is a Requisite.

Determined effort is being made by the manufacturers of canned goods throughout the country to induce the secretary of agriculture to defer the enforcement of the provision of the pure food act which requires the label on canned goods to state "the substance of the product and the place of manufacture." The chief argument used in making the appeal is that the manufacturers have already had printed labels, costing at least \$500,000, that would be lost by the enforcement of the act.

The argument of the canners will not hold. They have had ample notice of the operation of the law and all of its provisions, and it must be their loss if they have not made preparations for observing the federal act. Incidentally, the fact that the requirements of the law, in other words, do not state in substance the contents of the can, is the best argument in the world for the destruction of the labels and the printing of new ones that will give the customer some substantial hint of what he is buying. The time is past when a manufacturer can mix a little water and glucose and label it "Pure Vermont Maple Syrup," or pass a canned rabbit off for "Select Canned Chicken." The man or woman who buys "Choice Canned Veal" wants some assurance that the can is not filled with goat meat or something less palatable. When the purchaser pays the price for a big tin of "York State Apples" he does not want to be disturbed and angered by opening it to find it filled with parodies on the original Garden of Eden fruit.

The label question is a simple one. If the manufacturers have supplies of them that do not meet all of the requirements of the federal law, the defect may be remedied by the use of "stickers" supplying the omissions. If the labels were prepared for the deception of the customer, they should have never been used at all and the sooner they are destroyed the better for all concerned. In the matter of canned goods, most of the Americans are from Missouri.

Its Identity.
See the two Gentlemen! They approach rapidly from opposite directions, and meet abruptly and with such force that each tumbles down on his back. Ah! How unfortunate! Oh, yes! It is said they should have met at all, and there is worse yet to come. As they scramble to their feet each succeeds in kicking the other on the Sly, whereupon one instantly smites his assailant so furiously with a large bludgeon that he actually spreads the whole top of his head out like a mushroom. The unfortunate wretch immediately retaliates by seizing a barrel and smashing it to splinters on the antagonist's brow, and the latter returns the compliment by sticking a Pick-axe into his back.

No, no, my Child! This is not a Political Argument or a Religious Discussion. It is merely a bit of Polite Vaudeville, with the accent on the "Polite."—Fuck.

Heard Enough.
Judge—Do you think you could give a verdict in accordance with the evidence?
Would-be juror—I do.
Lawyer (for the defense, hastily)—Challenged for cause!—New York Weekly.

COST OF PANAMA CANAL.

Report Shows \$48,285,110 Spent Since Purchase of Right of Way.

Washington.—Up to July 1 of this year the Panama canal has cost the United States \$48,285,110, according to advance sheets of the annual report of the Isthmian canal commission. Of this amount \$10,000,000 was paid to the French canal company in relinquishment of its rights and property there, and \$10,000,000 was paid to Panama for the right of way.

Of \$79,605,668 appropriated since \$50,000,000 was paid to Panama, and the French company, \$48,285,110 has been expended, leaving a balance of \$31,323,458, available July 1. Of the \$48,285,110 expended \$33,452,499 went for construction and engineering work, \$2,318,277 on account of the expenses of the civil government, \$5,550,208 on account of sanitation, and \$934,126 for miscellaneous purposes.

The new borings which have been made over the entire area of the lock site at Gatun show that the locks will rest for their entire length on rock. All doubt on that point has been removed.

S. E. Blackburn, of Kentucky, has been appointed a district judge in the canal zone by the commission.

The Tally Wags enjoyed a very pleasant dance last night in the club hall, the affair being the annual holiday ball of the organization. About twenty-five couples danced to the music of Dowler's orchestra. Nice refreshments were served during an intermission in the dancing. Mr. and Mrs. Guy C. Stoltz, of Mineville, N. Y., and Dr. and Mrs. Chester Carlyle, of Willard, N. Y., were the guests from a distance.

John Hogan entertained about twenty of his young friends at his home on Olney Avenue last evening, in honor of Charles Mc. Donough and Edward Stuber, who are visiting at their home in this city during the holidays. An elegant six course luncheon was served after which the remainder of the evening was spent at pedro. Edward Burke won the first prize a large box of candy, and Paul Healy the consolation prize a lemon and a toothpick.

DITCH GRANTED

Contract for Longacre Ditch to be Awarded January 4.

The board of county commissioners held a meeting, Thursday afternoon, and after making several changes in the report of County Surveyor Ault in regard to the Longacre ditch, the improvement was granted. The contract will be awarded January 4 at 1:30 o'clock. The commissioners Friday viewed the Lewis Allmendinger ditch in Prospect township.
